Revision, and *Rollover and Revision of Boating Industries* unit standards

Subfield	Domain	ID
Boating Industries	Boatbuilding	12942
	Marina Operations and Services	25116

What has happened

12942

- Outcome statements and performance criteria have been updated to reflect current industry practice and current terminology used.
- The range for outcome 1 was expanded and repositioned under the guidance information section.
- New guidance information was added, stating that frameworks may be external or internal in their construction method.

25116

- Outcome statements and performance criteria have been updated to reflect current industry practice and current terminology used.
- Definition for *components* has been added to provide consistency and clarity.
- A number stipulating the minimum demonstrations required has been added to some performance criteria range statement, meeting what industry would consider competent.

- Title has been changed to allow learners to demonstrate their ability on either option.
- The planned review date has been extended from 31 December 2022 to 31 December 2026 to align with the next scheduled review of the Marina Operations and Services unit standards.
